

Specification	Details
Make / Model	Enagic – Anespa DX
Application	Shower water system
Installation	Inline between mixer and shower hose
Power Requirement	None
Filtration System	Dual-cartridge system: active charcoal + Futamata ceramic media
Water Treatment Function	Mineral ion conditioning; chlorine & contaminant reduction
pH Range	Same as incoming tap water
Production Rate	Approx. 2.6 L/min
Operating Temperature	Up to 60 °C (140 °F)
Operating Pressure	Compatible with standard marine shower systems
Dimensions (W × D)	130 × 346 mm
Weight	Approx. 4.2 kg
Cartridge Design	Large ceramic cartridge with high-density ceramic balls (DX model)
Ease of Use	Simple installation and operation
Maintenance	Periodic cartridge replacement
Cartridge Life	Approx. 12–18 months (usage & water quality dependent)
Warranty	3-year manufacturer warranty (region dependent)
